Please describe the methods your agency considered or used to reduce the impact on small businesses (*examples: consolidation, simplification, differing compliance, differing reporting requirements, less stringent deadlines, performance rather than design standards, exemption, or any other mitigating technique*).

The Office of Tattooing, Body Piercing and Branding is proposing a new regulation in order for the board to accept evidence of military education, training, or service to be applied toward the requirements for licensure.

Pursuant to section 324.007, RSMo, which was enacted in 2013, every professional licensing board shall establish by rule the criteria to accept evidence of military education, training, or service to be applied toward the requirements for licensure.

This proposed rule is necessary to implement that statute. It provides for the division to accept evidence of military education, training, or service to be applied toward the requirements for licensure.

Please explain how your agency has involved small businesses in the development of the proposed rule.

After the proposed rule is filed with the Secretary of State's Office, a public notice for this rulemaking will be published in the *Missouri Register* and posted on the division's website. Any comments received prior to the close of the public comment period will be considered and addressed prior to filing the final order of rulemaking.

Please list the probable monetary costs and benefits to your agency and any other agencies affected. Please include the estimated total amount your agency expects to collect from additionally imposed fees and how the moneys will be used.

There are no monetary costs or benefits related to the implementation of or compliance with this amendment.

Please describe small businesses that will be required to comply with the proposed rule and how they may be adversely affected.

This rule will allow applicants with the appropriate military experience, the ability to submit evidence of military experience as a part of the requisite education and/or training requirements for licensure.

Please list direct and indirect costs (in dollars amounts) associated with compliance.

The rule will cost both public and private entities no more than \$500 in the aggregate.

Please list types of business that will be directly affected by, bear the cost of, or directly benefit from the proposed rule.

Active military licensees may be affected by this rule.

Does the proposed rule include provisions that are more stringent than those mandated by comparable or related federal, state, or county standards?

Yes ___ No X

If yes, please explain the reason for imposing a more stringent standard.

For further guidance in the completion of this statement, please see §536.300, RSMo.
